  job_type      => 'PLSQL_BLOCK',

DECLARE V_COUNT NUMBER;

start_date      => SYSTIMESTAMP,

repeat_interval => 'FREQ=DAILY;BYHOUR=7;BYMINUTE=0;BYSECOND=0',

enabled         => TRUE

);

END;
```

Result:

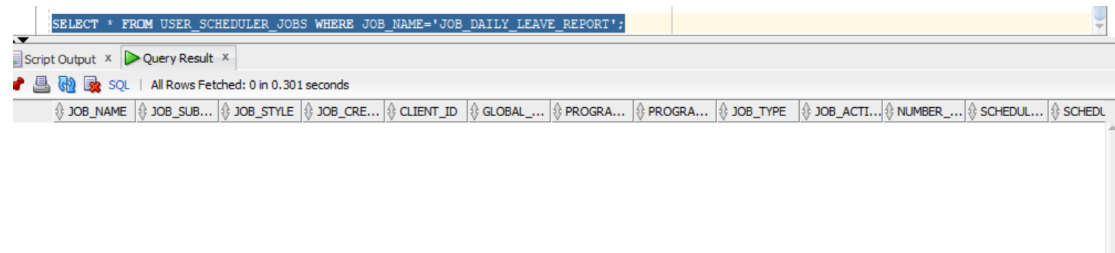

The recurring scheduler job could not be created because the current user does not have the required privilege.

Oracle Error:

ORA-27486: insufficient privileges

The DBMS_SCHEDULER package requires CREATE JOB privilege. Therefore, the job could not be created or scheduled.

```
SELECT * FROM USER_SCHEDULER_JOBS WHERE JOB_NAME='JOB_DAILY_LEAVE_REPORT';
```

The query returned no rows because the scheduler job was not created successfully.

Reason:

ORA-27486: insufficient privileges

The current user does not have CREATE JOB privilege, therefore JOB_DAILY_LEAVE_REPORT does not exist in USER_SCHEDULER_JOBS.
